

# PEOPLE PAK™

Digital Humans

## Affordable Customizable

### What is PeoplePak?

**PeoplePak** is a collection of high-quality avatars which you may purchase singly or as a bundled set. Full licenses offer you the actual 3DMax Character Studio formatted files, allowing you to fully customize the appearance and behaviors of the avatars. Run-time only licenses are designed to instantly integrate with Vizard-based applications and permit redistribution.

**Vizard** standard installation offers a rich programming environment for scripting avatar behaviors both at a very high-level and when necessary at a low-level. A male and female run-time avatars come free with Vizard.

### Advantages

**3rd party software** integration allows you to customize avatars using 3DMax Character Studio or other tools of your choice.

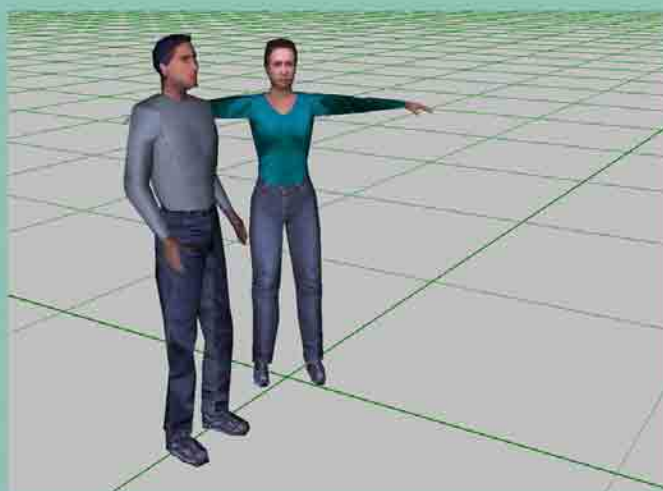

**Open-architecture** Cal3D compatibility allows you to leverage skin properties and behaviors in your own custom application.

**BioVirtual 3DMeNow** support for instantly building high-quality faces and integrating dynamic facial expressions.

**Ease of use** development within the Vizard world creation platform.

**Real-time performance** means you can populate your work with lots of high-quality avatars and use built-in LOD only when truly necessary.

**Realistic bodies & faces** have been carefully crafted by skilled 3D artists to balance performance and aesthetic demands.
